Professional Summary

Accomplished Senior Data Scientist and Machine Learning Engineer with 4.5 years of experience architecting and deploying end-to-end AI applications, NLP pipelines, LLMs, and predictive models.

Technical Skills

Languages & DBs: Python, SQL, C++, PostgreSQL, MongoDB, Redis
ML/AI: Machine Learning, Deep Learning, NLP, Generative AI, RAG, Scikit-Learn, PyTorch, TensorFlow, Pandas, NumPy, spaCy, NLTK
DevOps & Cloud: AWS, Docker, Kubernetes, FastAPI, Git, CI/CD, Linux, Tableau, Power BI

Professional Experience

Lead Machine Learning Engineer — DataCore Analytics (2022 - Present)
- Architected enterprise RAG and NLP search pipelines using Python, PyTorch, and FastAPI, serving 250k+ daily queries and reducing latency by 42%.
- Trained custom Scikit-Learn predictive models achieving 94% classification accuracy; decreased customer churn rate by 18%.
- Containerized model inference microservices with Docker and deployed onto AWS Kubernetes clusters with automated CI/CD.

Data Scientist — CloudWave Solutions (2020 - 2022)
- Developed customer segmentation models and automated ETL data pipelines utilizing Python, Pandas, and PostgreSQL for 15M+ transaction records.
- Built interactive executive BI dashboards in Tableau, driving strategic decision making across 4 department heads.
- Mentored junior data analysts on Git workflows and statistical hypothesis testing.

Education

Master of Science in Computer Science — Stanford University (2020)
Bachelor of Science in Data Science — University of California, Berkeley (2018)
