Professional Summary

Senior Full Stack Python Developer with 5 years of experience engineering resilient web applications and microservices. Specialist in Python, FastAPI, Django, React, and cloud-native containerized deployments.

Technical Skills

Languages: Python, JavaScript, TypeScript, SQL, HTML5, CSS3
Frameworks: FastAPI, Django, Flask, React, Redux, Tailwind CSS, Bootstrap
Cloud & DevOps: AWS, Docker, GitHub Actions, CI/CD, Linux, Nginx
Databases & Practices: PostgreSQL, MySQL, Redis, MongoDB, REST API, GraphQL, PyTest, Agile, Scrum

Work Experience

Senior Backend Engineer — Vertex Software (2022 - Present)
- Engineered high-throughput RESTful microservices using Python and FastAPI, handling 12k requests per second with 99.99% uptime.
- Built responsive user dashboards in React and TypeScript styled with Tailwind CSS, increasing user engagement by 35%.
- Implemented multi-tier caching with Redis and PostgreSQL query tuning, reducing page load times by 55%.

Software Engineer — NexaTech Systems (2019 - 2022)
- Developed scalable Django web applications and integrated Stripe payment gateways for 50k+ active subscribers.
- Established automated CI/CD deployment pipelines using GitHub Actions and Docker containers deployed to AWS ECS.

Education

Bachelor of Science in Computer Science — University of Texas at Austin (2019)
